# COMPANY PROFITS Good Progress Made By Architect Says Waialua Deputy Sheriff Has Arrest Large Number of Filipinos

Japanese Papers Comment Editorially On Letter of Head of Planters' Labor Bureau

LARGE INCREASES SINCE WAR READILY ADMITTED

of Proportions With the Gain In Earnings

letters written to the Japanese press by Royal D. Mead of the Hawaiian Sugar Planters' Association has appeared in both the Nippu Jiji and the Hawaii Shinpo. The former takes the stand that while wages are increased under the bonus system the increase is not commensurate with the increased cost of living and that as a result the laborers are suffering. The latter ap-pears to take the stand that the lathe crops, that the companies are the Old School: Hall road.

the crops, that the companies are the Old School: Hall road.

"In this plan special features would be made of the old Punahou Spring is greater than the largest which has and the nergola over it the old Spring and the nergola ove greater than the increase which the orers will have under the bonus system. It does not appear to have considered the fact that heavy taxes and imposts will be placed upon the companies under the war revenue tax bill. It is doubtful whether the amounts that may be distributed in dividends to the stockholders, after the war taxes are paid, will be greater, if as great as they were last year while more than a million dollars increase in bonuses

Commenting on Mr. Mead's letter editorially, the Nippu Jiji says: "The Hawnian Sugar Planters' Association has published in The Advertiser a long open letter to the Japan ese newspapers on the subject of high-er wages for plantation laborers the consideration of which is now interesting the Japanese community. Of course this open letter is written to explain the standpoint of the planters and such self explanation is very minute, detailed and precise. It shows the results of the bonus system and gives figures and examples to show the earnings of the laborers on different plantations. It seems to us that it is the the planters are giving to the laborers as generous treatment as they are able that a demand for higher wages is, under the circumstances unreason-"Mr. Mead, director of the labor

will go to labor. Considers Planters' Explanation

bureau of the Hawaiian Sugar Planters' Association, who drafted the explanation and the letter, said at the outset that there are usually two sides to every question, and this we take to contain a hint that the opinion of the Japanese newspapers and their arguments are one sided and selfish. have noticed ourselves that some of them are futile and far apart from statistics. However, such arguments all other prices. Therefore, even if expense At Camp Fremont Deemanese opinion. Japanese Seek to be Pair

We do not hope or expect to acdemands by such selfish arguments or by taking only the Japanese side. If that pay so well as Ewa are few among we are to win our hopes it must be by impartial and moderate efforts. For This is the reason why we criticise Mr. impartial and moderate efforts. For that purpose was organized the "As-Mead's explanation and term it one-sociation for Higher Wages", and responsible persons selected to investi- Larger Share of Profits gate and study the facts. In our opinion Mr. Mead's explanation is planation there is clear acknowledge and does not consider the standpoint of the laborer, which we regret. Increases Are Admitted

"As precisely stated in the explan-ation of the Planters' Association is the Planters' Association it is a fact that the plantation laborers' not opportune at this time. These are callings at present are substantially questions to be considered when the increased over what they received before the war, as a result of the high events. We are hoping for an impar-price of sugar. It is also a fact that tial consideration by the planters of the working of the bonus system. We and not of those which are to come in have never denied these facts. What the future. we insist is that the inflation of liv. Split Dividends, Says Shinpo ing costs is greater than has been the increase in the laborers' earnings. In consequence nearly all of the laborers days on the wage question, yesterday are suffering by reason of such hard came out strongly for the higher wag Therefore the planters, capitalists, should come to their assistance and share some of the enormous plantation profits. How Plantation laborers of all the Islands are suffering on account of the very high cost of have received no parties of the extra living can be determined at the stores profits resulting on the production in the plantations. This is the most which is due to their efforts. competent evidence, as to how the lab

orers are pressed financially.
"Mr. Mead having cited the average monthly earnings of day laborers, short term contractors and cultivation contractors in Ewa and six other plantations, maintains that the laborers must have considerable amounts over peet to pay.

their monthly expenses as boarding Another Conference Proposed houses are charging single men \$8 to \$10 a month Then how does he view the case of the laborer who has a wife and four or five children? In these days there are many more married sub-committees and had declined to do than unmarried laborers and most of so pending a further conference. This the married ones have three or four suggestion was not approved by a meet-

## IMPROVE PUNAHOU

While Here and Proposals Are Alternative

Some general progress towards coordinating the buildings of Punahou and on the Dillingham memorial hall was made by Bertram G. Goodhue, the noted architect, while here, according to Arthur F. Griffiths, president of Onhu College. Mr. Goodhue was here at the request of the college and left rather Living Costs Have increased Out harriedly on the last Matson steamer, called by important business.

Speaking of the plans for Punahou,

President Griffiths said yesterday: "The trustees have authorized Mr. Goodhue to go ahead with two projects. The first is to work out a block plan of Editorial comment at length on the the grounds containing the present and proposed buildings, the present and proposed rough and the places for the planting of new trees and general beau-tifying of the campus in general. One of the suggested plans is to have a sort of quadrangle formed with the space in it tree from buildings of any description. The present road past the Old School Hall would be continued straight up to the dormitories and would go up around the athletic fields and then down again parallel to

> tering the campus and other beauty spots on the campus. Our desire is to emphasize as much as possible the importance which the spring has had and

has in Punahou life.

"The second project is the making of preliminary sketches of Dillingham Hall. A suggested site for this new A suggested site for this new hall and auditorium is on the where the tennis courts used to be. In this half will be held all public exercises and services. There will be seating capacity for at least twelve hun-The building will be equipped so that the yearly performances of the Punahou Dramatic Club may, have a suitable stage for presentation. A moving picture machine will also be part the equipment."

Some of the new buildings which are now planned by President Griffiths and those who are working on the matter are a gymnasium, manual training building a junior academy building which would contain the seventh, and eighth grades and the Freshman class, thus relieving the congestion in the preparatory school and the acall enty. No money has as yet tained for these buildings. The plans tained for these buildings. The plans nahou will be like when it is possi-

## ANDERSON REFUTES POLICE SHOW SIGNS PLEMER'S CHARGE

Not Assisted In Capturing Runaway Waialee Boys

A statement made yesterday by Deputy Sheriff Plemer of Waialua that more boys are running away from the Waialne Industrial School than ever before is incorrect, said Superintendent Frederick Anderson yesterday. He also says that Plemer's statement that four boys who escaped on Saturday are still at large is not so. They re captured by Jose Leal, probation officer, on Tuesday evening in Kalihi, as was reported in The Advertiser yesterday morning.

\*\* During the first year of my work Waislee forty six boys escaped, perintendent Anderson sald yester-They were all captured. was the best record at the school in seven years. This year nineteen have run away, but, with the exception of two, all have been captured by Mr.

f'Mr. Plemer's published statement that authorities have also had considerable trouble in catching the boys, due to the lack of rewards, is not so. The police officers and the pubare expected to assist generally apprehending the runaways, but the Wailalus police, the deputy sheriff insluded, do not seem to realize this. There is one exception and he is the Japanese officer down there, who helps me out considerably.

"I notify Mr. I'lemer when boys es-cape, but he has given me very little help. I have discovered that he does not even instruct his officers to be on lookout for runaways.

"Paying the five-dollar reward for the capture of each runaway boy has been practically discontinued. The reward went only, anyhow, to civilians, the police being expected to do their work without further remuneration than they already receive.

"The appropriations for the mainfenance and support of the school have never been any too munificent and we have to save every cent we can. Everything has gone up in price and I, for one, will sooner save those five-dollar pieces to pay for food for the boys Their stomachs need it a whole lot

"And we can save the reward mon ey, for Mr. Leal is on the job day and night and, lone-handed, has done more since he has been probation officer than

ficial report of the admiralty on the sinking by Teuton submarines it was draft. stated that five vessels over 1600 tons

In Connection With Murder of Japanese

Aroused to a partial sense of its responsibilities by the criticism of The Advertiser yesterday morning, and also by the welling current of public opinion, the police department yesterday united itself in one grand effort to effort to secure the apprehension of the gang of Filipinos, believed to number five. who late on Tuesday might murdered Tsumetaro Hayashihara, a murdered Tsumetaro at the Pali Japanese store keeper, at the Pall camp of Libby, McNeill & Libby, between the Pall and Kaneohe.

During the day following twelve Filipinos were arrested and held at the police station under suspicion of complicity in the crime: Isidore Alaric, Eduardo Asuncion, Benito Rico, Gabriel Verver, Ariston Mostajo, Florencio Bonella, Pedre Poras, Bonifacio Dieno, Servero Aniban, Adel Biendo (w), Amador Alberta and Mateo Dolay. The police dragnet was stretched far and wide in and about Honolulu and

every suspicious Ellipino was enveloped therein.

News that Filipinos were being arrested spread speedily throughout the local Filipino colony and a number of tender-conscienced individuals packed up all their earthly belongings and up all their earthly belongings and sped away each to his own peculiar hiding That the arrests of those responsible

for the crime has not yet been accomplished was evidenced by the fact that Chief of Detectives McDuffie and a number of his men spent last night across the Pall, and in the vicinity in which the murder took place,

Mateo Dolay and Amador Albeta were arrested by Deputy Sheriff Asch early yesterday morning, as they were getting of a motor truck which came to Honolulu via the Pali. They have given satisfactory accounts of their netions on the night in question. Three of the suspected were arrested

at Puulon and seven more in the vicinity of Kailun. Two of the men were charged at the police station at halfpast eight o'clock yesterday morning, and the remainder yesterday after-

A revolver picked up near the scene of the murder was found to have been urchased from Theo. H. Davies & Co., y a Filipine woman, who gave her diress as a camp of the Libby, Me-Neill & Libby Co., on the other side of the Pali. She was traced and laced under arrest.

## HAWAII COUNTY **WANTS ENGINEER**

Asks Territorial Public Works To Pay One-half of A. C. Wheeler's Salary

Hawnii county wants an engineer and will appoint A. C. Wheeler to the posi- Hopotas tion, provided the department of pub lie works will go fifty fifty with the Kahuku Plant Co board in the payment of Mr. Wheeler's Kekaha Sugar Co. salary, which is to be two nungred and McBryde Sugar Co. Ltd., onhu Sug. Co. Olan Sugar Co. Ltd., Olan Sugar Co. Ltd., Onomea Sugar Co. W. R. Hobby, superintendent of pub-

he works and chairman of the harbor board, brought the matter before the latter board at its meeting yesterday. After considerable discussion the board decided that it would wait yet awhile and instructed its chairman "to be prepared to submit at the next meeting of the board some scheme whereby Wheeler can be kept on the payroll." Mr.

Hobby will attempt to do this, The members, however, were of the opinion that even if there was any need for the board to have an agent in Hilo, all that could be expected would be to pay Mr. Wheeler for the netual work performed by him for the board. Too Valuable For Hilo "I believe that Mr. Wheeler is too

valuable a man to have in Hilo," Com-missioner Watkins remarked, "We have more need for him in Honolulu." It seems practically assured that Mr. Wheeler will shortly resume his work here with the harbor board and the department of public works with which he was connected for many years Hamakus Ditch Co. Sa.

before going to Hilo as agent.

The proposition that Wheeler become county engineer at Hilo was made in a letter to the former, sent him by Samuel Kanhane, chairman and executive officer of the Board of supervisors of Homean Sugar Co. 6%.

ty engineer.

'On behalf of the county, I am authorized and prepared to make you the following proposition, which I hope will meet with your approval.

"Commencing with September 1, 1917, the county will pay you one-half of the salary which you will receive as agent or representative of the public works department; will furnish with an office and pay one-half of the expenses of the same; and will furnish you with an automobile, though the upkeep of said automobile will have to be at your own expense. Hawaii County To Profit

"Your position as agent of the pub lie works department has influenced me, to a large extent, in submitting the above proposition and it is my wish should you consider favorably the offer of the county, that the office of civil engineer and agent of the public works department can be so combined as to prove of mutual benefit to both the Perritory and the county.

"If the above offer meets with your approval, I would deem it of great value to the county if you would take up with the Governor the various appropriations pertaining to the County of Hawaii, which come directly under the Loan Fund Act."
